

AHMED YOUSEF RAMADAN

CERTIFIED SCIENCE & CHEMISTRY TEACHER | STEM & EDTECH SPECIALIST

Alexandria, Egypt • +20 155 390 0394 • ahmedaboshady128@gmail.com • linkedin.com/in/ahmed-yousef-ramadan

PROFESSIONAL PROFILE

Passionate, certified Science & Chemistry Educator with a strong dual background in Biophysics & Chemistry (Faculty of Science) and a Postgraduate Professional Educator Diploma (Faculty of Education). Dedicated to fostering scientific inquiry, critical thinking, and intellectual curiosity within international curriculum frameworks (American Diploma, British / Cambridge IGCSE, and IB). Highly skilled in student-centered instruction, laboratory experimentation, differentiated learning, and modern Educational Technology (EdTech) integration to drive both academic excellence and genuine enthusiasm for the sciences.

EDUCATION & PROFESSIONAL CREDENTIALS

Postgraduate Diploma in Education (PGDE) | Professional Educator Qualification | Alexandria University – Faculty of Education

Specialized in Educational Psychology, Modern Pedagogical Methods, Curriculum Design, Classroom Management, and Learning Assessment Strategies.

Bachelor of Science (B.Sc.) in Biophysics & Chemistry | Alexandria University – Faculty of Science

Comprehensive curriculum covering Organic, Inorganic, and Physical Chemistry, Molecular Biophysics, Laboratory Techniques, Quantitative Analysis, and Research Methodologies.

CORE TEACHING COMPETENCIES

- Curriculum & Pedagogy:** Inquiry-Based Learning (IBL), STEM Education, Differentiated Instruction, Lesson & Unit Design, Formative & Summative Assessments, Student-Centered Active Learning.
- Subject Matter Expertise:** General Science (Middle School / Key Stage 3), Chemistry (High School / IGCSE / American Curriculum), Biophysics & Integrated Physical Sciences, Laboratory Safety & Experimental Design.
- Classroom Leadership:** Positive Behavioral Support, Student Mentorship & Academic Guidance, Fostering Growth Mindset, Cultivating Inclusive Learning Environments, Effective Parent-Teacher Partnership.
- Educational Technology:** Google Classroom, Microsoft 365 for Education, PhET Interactive Simulations, Virtual Labs, Quizizz / Kahoot, Interactive Whiteboards, Digital LMS & Analytics.

TEACHING & INSTRUCTIONAL EXPERIENCE

Science & Chemistry Educator (Academic Tutoring & Student Instruction) | Alexandria, Egypt (2021 – Present)

- Deliver rigorous, student-focused instruction in Middle School General Science and High School Chemistry aligned with international curriculum standards (Cambridge / IGCSE and American NGSS frameworks).
- Design inquiry-based, hands-on lesson modules that translate complex theoretical chemistry and physics concepts into tangible real-world demonstrations, significantly elevating conceptual retention.
- Facilitate laboratory experiments and practical investigations, maintaining strict adherence to laboratory safety protocols, risk assessment procedures, and scientific documentation.
- Implement continuous formative assessments, diagnostic quizzes, and exit tickets to identify individual learning hurdles, adapting instructional paces through personalized differentiated interventions.
- Integrate interactive EdTech tools—including PhET simulations, digital 3D molecular models, and gamified assessments—resulting in an estimated 35% increase in student engagement and exam pass rates.
- Maintain proactive communication with parents through constructive academic reporting, collaborative goal-setting, and supportive study strategies.

TEACHING PHILOSOPHY & INSTRUCTIONAL METHODOLOGY

I believe that science is not merely a body of memorized facts, but a dynamic method of exploring and understanding the world. My instructional approach centers on three core pillars:

- **Inquiry & Hands-on Discovery:** Empowering students to ask probing questions, formulate hypotheses, test assumptions through experimentation, and construct their own scientific conclusions.
- **Differentiated & Inclusive Learning:** Recognizing diverse student learning styles, linguistic backgrounds, and paces by offering tiered scaffolding, visual models, and varied pathways to mastery.
- **EdTech-Enhanced Engagement:** Utilizing interactive digital simulations, virtual labs, and real-time formative feedback to make abstract microscopic and physical phenomena visible and engaging.

PROFESSIONAL & LEADERSHIP EXPERIENCE (TRANSFERABLE SKILLS)

Strategic Planner, Team Mentor & Digital Content Lead | *iCONSULT / Vitagenn / Total Care (Egypt, UAE, KSA) (2021 – 2024)*

- **Mentorship & Instructional Coaching:** Mentored and onboarded junior team members, conducting structured workshops that cultivated strategic thinking, analytical problem-solving, and team collaboration.
- **Educational & Scientific Communication:** Designed structured, accessible informational content for scientific and healthcare initiatives, translating intricate technical data into clear, engaging visual presentations.
- **Data-Driven Evaluation:** Evaluated audience metrics, retention indicators, and performance trends—leveraging quantitative analytical skills directly applicable to tracking student academic progress and data-informed instruction.
- **Project Management & Technology Leadership:** Administered digital collaboration tools, content workflows, and cross-functional communications across multicultural teams, demonstrating high-level organization and EdTech literacy.

EDTECH & SCIENTIFIC LABORATORY PROFICIENCY

- **Digital Classrooms & LMS:** Google Classroom, Microsoft Teams for Education, Canvas, Zoom / Meet for interactive learning.
- **STEM Interactive Tools:** PhET Interactive Simulations (University of Colorado), ChemCollective, LabXchange, Molecular Workbench.
- **Gamified & Formative Assessment:** Kahoot!, Quizizz, Edpuzzle, Mentimeter, Google Forms for diagnostic exit tickets.
- **Laboratory Safety & Equipment:** Standard laboratory glassware, chemical reagent handling, PPE safety protocols, microscopy, spectrophotometry.

PROFESSIONAL DEVELOPMENT & CERTIFICATIONS

- Modern Teaching Methodologies & Active Learning Strategies (Faculty of Education)
- Laboratory Safety Standards and Chemical Management in School Environments
- Next Generation Science Standards (NGSS) & STEM Curriculum Integration
- Differentiated Instruction and Formative Assessment in Secondary Education
- Digital Educational Technologies & Blended Learning in International Classrooms
